

Product features

It has characteristics such as medium gain, wide operating frequency band, and good performance consistency within the operating frequency band.

Main specifications

Parameters	Min	Typical	Max	Units
Frequency	30	~	3000	MHz
Gain		4		dBi
VSWR		2		
3dB Beamwidth	45		120	°@≥150MHZ

Other parameters

Polarization	Linear Pol.
Power Capacity	200W Design assurance
Connector	N-K
Outline size	1198*1500*620mm
Estimated weight	2.6Kg
Surface	Green
Operation Temp.	-25~+55°C Design assurance
Storage Temp.	-40~+60°C Design assurance
Other	推荐天线架型号TXJ7-2000-1257

Configuration(mm)

Note

1. Non professionals are not allowed to disassemble.
