Main specifications

Parameters	Min	Max	Units
Lifting height	0.83~	1.89	m
Folding height		0.86	m
Bearing		8	Kg

Other parameters

Connector	1/4 ", 3/8" male thread
Outline size	180*180*860mm
Estimated weight	4.4Kg
Material	Aluminum alloy
Surface	Black
Operation Temp.	-25~+55°C Design assurance

Configuration(mm)

Note

Avoid collisions during installation.

The support rod should be perpendicular to the ground to prevent antenna damage.
