

Product features

It has the characteristics of wide bandwidth, low sidelobes, and high efficiency.

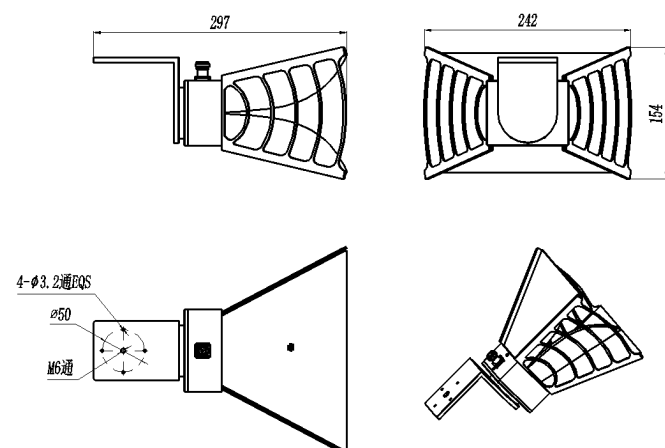

Main specifications

Parameters	Min	Typical	Max	Units
Frequency	1	~	18	GHz
Gain		9		dBi
VSWR		2.0		
power		50		W (Design assurance)

Other parameters

Polarization	Linear polarization
Connector	N-K
Outline size	267*145*235mm
Estimated weight	1.6Kg
Surface	Green
Work Temp.	-25~+75°C Design assurance
Storage Temp.	-45~+85°C Design assurance

Configuration(mm)

Note: The specifications and performance data contained in this data sheet are based on tests established by CMW.

Note

Private disassembly by unprofessional personnel may worsen or even broken the antenna.

Make sure no obstacle or high electromagnetic radiation appears near the antenna.

It is strictly prohibited to install and use antenna in the thunderstorm outside, and the lightning protection facilities are necessary.

Please do not discard the antenna casually since it contains electronic components.
