

## Product features

Low VSWR, high cost-effectiveness.

## Main specifications

| Parameters | Min | Typical | Max  | Units |
|------------|-----|---------|------|-------|
| Frequency  | DC  | ~       | 18   | GHz   |
| IL         |     |         | 0.2  | dB    |
| VSWR       |     |         | 1.25 |       |

## Other parameters

|                        |                                |
|------------------------|--------------------------------|
| Impedance              | 50Ω                            |
| Connector              | TNC-F / TNC-F                  |
| Product shell material | Passivation of stainless steel |
| Inner conductor        | 镀青铜镀金                          |
| Spanning               | PTFE+PEEK                      |
| Operation Temp.        | -45~+85°C Design assurance     |

## Configuration(mm)
